

February 2022

Dear Patients,

Please let us know if your case has closed or may close soon. Per RehabOne's Office Policies Agreement, the patient is responsible for all charges incurred after the settlement date and/or if the patient's case is not accepted by the workers' compensation carrier.

Once RehabOne receives notice that a case has closed, the chart will be reviewed to determine if the financial responsibility for any of the visits should be transferred to the patient. We do our best to avoid this situation whenever possible and appreciate your cooperation in immediately notifying us of case closure.

Please find our 2022 cash prices below. If you are unable to pay your balance in full, we are happy to discuss and arrange lower monthly payment options.

| | |
